## **PROSPECTUS**

## THE WORLD

**Become a global village and futures will be born from**

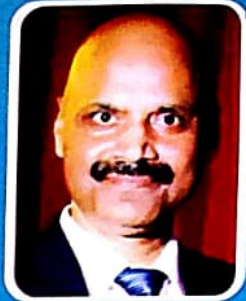

The teachers - are seen as the builders of the nation and the emerging world. Globalization is the core to the educational programme. The school motto Global outlook, impresses upon the learners, Indian values, broad based knowledge, global cultural ethos and socioscientific developments as the highest form of meditation to attain the global outlook. It provides an identifying system, which amalgamates the aspirations of the present generation without compromising on Indian value system and traditions.

We believe that each child has the talent to learn and develop. The integrated programme of these activities assist our students to master various skills. Our Child Centered Approach is solely based on learning beyond the classroom.

In the contemporary world in which our young children are competing and shining on the national as well as international forums, education needs to go far beyond the acquisition of academic competencies. In the competitive workplaces around the world, the need for developing life skills is of utmost importance. Therefore, we are imparting life skills among our students. The ten life skills listed by World Health Organisation will definitely help our students to grow as individuals and make an early impact in their professions. We are confident that the students with these skills tend to become productive citizens with greater ability to cope with the challenge of life.

Every institution has its own principles of investigation and so do ours. We encourage for being practical in the field of education. After a long attempt we are in a position to present ourselves before you and too intend to get help for our lotus to bloom.

It is very difficult to satisfy each one with perfection. We put all our energies to concentrate and get attached to upgrade the kids and adolescents. But our brains shall be unable to conceive those noble ideas that require to strengthen a locality, society and the nation unless our foundation is not strong. It is not possible for a bird to fly with only one wing, i.e. we need your complete cooperation and guidelines. I can assure you that Delhi Public School Gawan will be a school with a difference. I also assure you that your child will get the best of East and West.

## From The Desk of Principal

Principal  
Shweta Sinha

Schools are the training grounds for the citizens of tomorrow. To ensure that Indians have a space in the global platform, we need to nurture and promote innovation in thinking. Children must be encouraged to think through a problem and come up with creative solutions and this must be ably supplemented with technological progress.

Finally, the future lies in the hands of individuals who are ready to learn all through their lives. The understanding and acknowledgment of this fact alone by all the stake - holders in the education sector, i.e. parent, child and teacher will bring about commitment and qualitative change in the teaching - learning process.

"Wisdom sculptures freedom  
Freedom promotes knowledge  
Knowledge exudes love  
Love propels education  
Education visualizes dreams  
and Dreams are touchstones  
of character!"

The School is the most basic formal institution for interactive learning. There is systematic provision for you all to imbibe values, learn life skills and gain knowledge. The quality of inter - activeness imparts strength to the process of learning. The effectiveness of quality learning is defined by your attitude of discipline. Students must follow discipline. It steadies your steps to progress. The height of success is reached and aspirations fulfilled only when one makes disciplined efforts.

Let the message of discipline be the guiding light for everyone. Make discipline a habit. I wish everybody a purposeful new life ahead.
